Dr. Warren S. Johnson

Dr. Do Nguyen

Dear Patients,

It is with mixed emotions that I announce my retirement as of September 1, 2022. Myself and my wife Kay have enjoyed my practicing eyecare and her being a big part in managing the office and frame selection for 35+ years. You helped support our family throughout all of these years as we raised 4 children. Looking back, many of you we have known all of our lives because we grew up in Memphis. However, all of you were not only patients but deeply cherished friends. It has truly been a privilege to be a part of your lives and provide your eyecare. We will never forget the kindnesses you have shown us and I thank God for all of you. I have seen patients who were kids grow up who now have their own kids. I have seen some who now have grandchildren and great grandchildren. I have seen elder patients pass from this life that I will never forget. Many of you continued to amaze me with tokens of appreciation and things you remembered about incidents in my life from the beginning of my practice. I was blessed and will cherish the memory of conversations you shared with me about your lives. I was blessed in my chosen profession in so many ways in helping staff grow, helping providing vision care to my patients but especially the privilege I had in knowing and growing with each of you.

Many of you already know Dr. Do Nguyen I hired 10+ years ago. He will still be here to support your vision needs as well as other key staff I hired some 28+ years ago. Dr. Nguyen will do a great job taking care of your eyes. He looks forward to his new role in our practice. He is well trained in eye disease and treatment and I feel confident he will be a good choice in continuing our commitment to taking care of your eyes.

It is important for you to make arrangements to continue to receive quality eye care. You may contact the practice to schedule an appointment if you wish to continue your care with Dr. Do Nguyen.

Your medical records will continue to be available for the period required by law at our office. You may obtain a copy of your medical record by contacting our office at the address or phone number provided.

Alternatively, if you need assistance finding an optometrist or ophthalmologist, you may contact your health or vision plan and request a list of providers specializing in this type of care in your plan's network. You may of course have your records transferred to the eye care professional of your choice.

As I always told you, "You can't always detect vision problems based on the clarity of your corrective devices." Don't outlive your vision and keep your eye health examined each year!

With heartfelt thanks!

A handwritten signature in black ink that reads "Warren S. Johnson D.D." with a stylized flourish at the end.
